HEX HEAD

TAMPERPROOF

TAMPERPROOF
TOOLS

Hex head mounting bolts are available in both the SD and HD series. The SD series bolts are made from 18-8 Stainless Steel and the HD series bolts are made from 316 Stainless Steel.

Standard mounting bolt lengths:

- a.) 3/8"-16 x 3/4" (for Type B and unhoused SKRU)
- b.) 3/8"-16 x 1-3/4" (for Type F, T, D and DM)
- c.) 3/8"-16 x 2-1/4" (for Type D Latch Block & Type U lock)
- d.) 1/4"-20 x 5/8" (for Type FN and PPS)

Tamperproof mounting bolts are available in both the SD and HD series. The SD series bolts are made from 18-8 Stainless Steel and the HD series bolts are made from 316 Stainless Steel.

Standard tamperproof mounting bolt lengths:

- a.) 3/8"-16 x 3/4" (for Type B and unhoused SKRU)
- b.) 3/8"-16 x 1-3/4" (for Type F, T, D and DM)
- c.) 3/8"-16 x 2-1/4" (for Type D Latch Block & Type U lock)
- d.) 1/4"-20 x 5/8" (for Type FN and PPS)

A **tamperproof key tool or tamperproof bit tool** is required to install the tamperproof mounting bolts.

- 3/8" Bolt Key - shown at top of picture.
- 1/4" Bolt Key - shown middle of picture.
- 3/8" Bolt Bit - shown at bottom of picture.
- 1/4" Bolt Bit - similar to 3/8" bolt bit shown above but fits 1/4" tamperproof mounting bolts.

OPTIONS

The 3/8"-16 hex head bolts can be provided with a through hole in which a sealing wire can be secured.

BOLTS ORDERING GUIDE

HEX HEAD

To order hex head mounting bolts, put the letter “M” in the appropriate column of the interlock part number. Reference the bolt length when ordering separately.

TAMPERPROOF

To order button head socket bolts, put the letter “T” in the appropriate column of the interlock part number. Reference the bolt length when ordering separately. Tamperproof tools are sold separately.

TOOLS

To order these tools with your tamperproof mounting bolts, please order by the specific part number listed below.

	1	2	3	4	5	6	7
